

2

Selected individuals have, in the database, a representation matching their type (here models) synchronously displayed in the visualization space

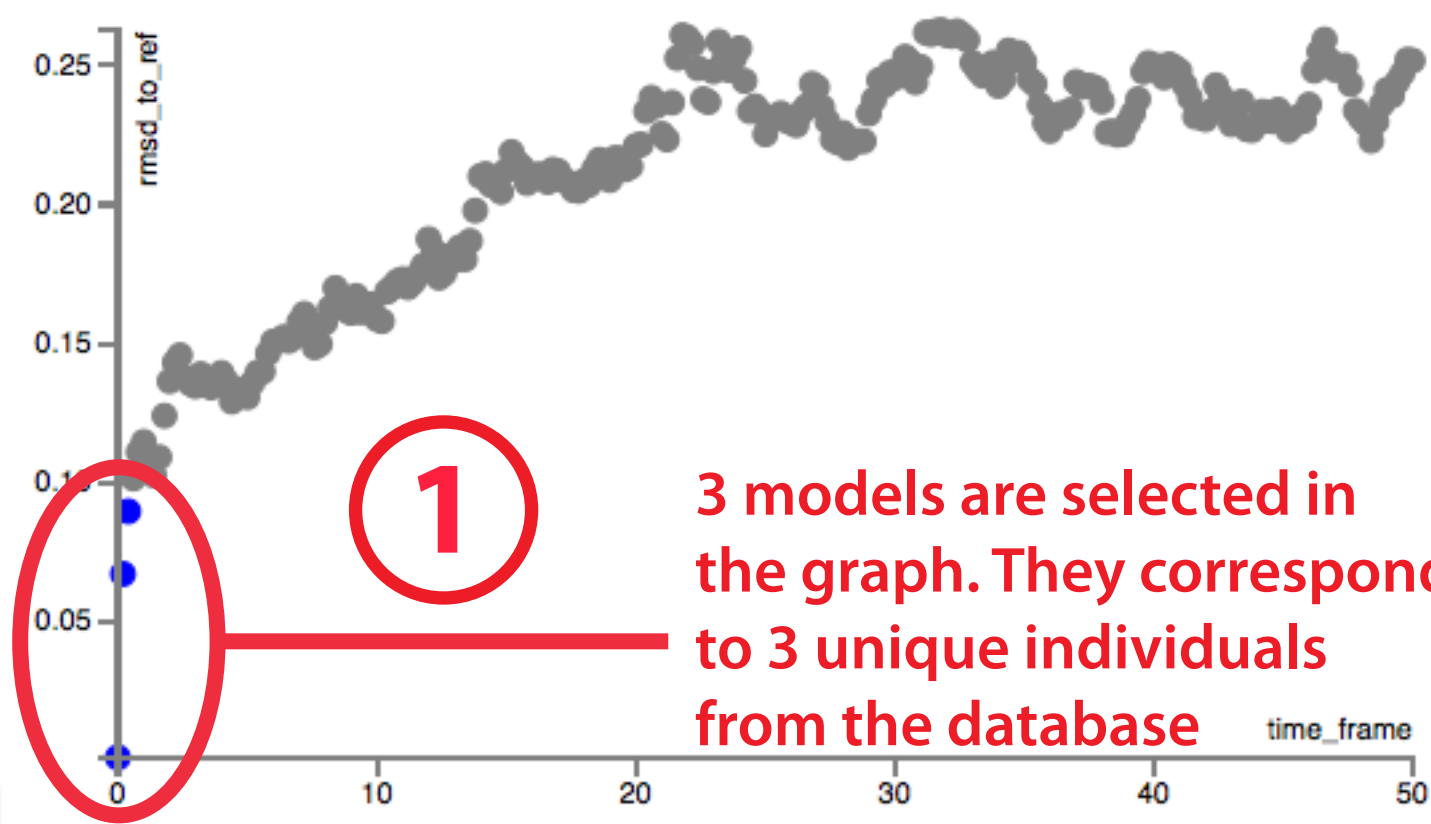

Synchronisation: ☒ Synchronize plots ☒ Synchronize visualisation
Contextualization: ☐ No context ☒ Weak context ☐ Strong context

MODEL

X-axis type: Choose a type Y-axis type: Choose a type

Current selection: time_frame / rmsd_to_ref |

Hint: You can click on the dots.

1

3 models are selected in the graph. They correspond to 3 unique individuals from the database

CHAIN

X-axis type: Choose a type Y-axis type: Choose a type

Current selection:

RESIDUE

X-axis type: Choose a type Y-axis type: Choose a type
